Humana People to People spans the globe through 29 independent member associations, each one with a firm base in their own country. We support members in delivering critical on-the-ground programmes across Africa, Asia, Europe, North America and Central and South America.

Our agenda is simple and clear: protecting the planet, building communities and supporting people by connecting them with others, unleashing their potential for positive change and action. We share this agenda with our partners at all levels.

We align with the UN 2030 Agenda and support countries as they strive to meet the UN Sustainable Development Goals, creating lasting positive change in the process.

45 countries

9.6M people reached

1,238 project units
We build on the people’s ability to face challenges and move forward together. We support social cohesion and together we find opportunities to progress.

In our Community Development projects in rural areas, the local Village Action Group is a main structure. The Village Action Group places the control of development processes and decision-making into the hands of the people who are affected.

Agriculture and environment are intimately connected. Fighting for food security must go hand-in-hand with protecting the environment. The healthiest production methods help fight off climate change and build resilience.

Our Farmers’ Clubs places farmers and their families at the centre of all activities. In the clubs, the farmers meet, learn and support one another in finding common solutions to the challenges they face.
Our health programmes begin with people and not with disease. Positive health outcomes rely on people living well; when they drive, build and maintain good health in their communities.

Our members take on some of the toughest health issues in their countries: HIV, TB, malaria, nutrition. Some of these issues are costly, and projects receive support from international partners.

“Only the people can liberate themselves from AIDS, the epidemic” has been TCE’s slogan since 2001.

We support public education as a common good, and with our unique education programmes and projects we seek to make learning a life-changing experience for students and teachers alike and inspire others to do the same.

We believe that students and teachers must learn together in and with their communities. What they learn must be tested and refined in the encounter with actions of change in the daily reality of life.
Our collection and sale of second-hand clothes funds social development projects and protects the environment.

We reduce waste, save precious resources through reuse, provide affordable clothing to people in both hemispheres - and it ultimately enables us to undertake invaluable development work.

Sources and expenditure of funding

In 2021, our members spent approximately US$96 million on development projects worldwide.

Partnerships

We are proud to work with a diverse range of partners who support our social and human development mandate. We thank all our partners for their continued support and commitment to work with the people on the ground, pursuing much-needed development for positive, lasting change.

Good Governance

We are committed to adhering to the highest standards of accountability, transparency and good governance. In 2021, we renewed our certification for governance policies and procedures, including their implementation, by engaging the renowned expert Société Générale de Surveillance (SGS) NGO Benchmarking Standards. Several of our members have obtained similar governance certifications in 2020 and 2021.
